## What is this product?

### Type

The fund is a UCITS investment fund issued in Germany.

This document refers to unit class C of the Lupus alpha Sustainable Convertible Bonds. New unit classes may be formed at any time. However, the rights of investors who have purchased units in existing unit classes will remain.

There is a one-day period for buying and selling units.

### Term

The fund has an indefinite term. The company is entitled to terminate the management of the fund subject to a notice period of six months by way of an announcement in the Federal Gazette and furthermore in its annual or half-yearly report. Information on redemption options can be found in the section "How long should I hold the investment and can I withdraw money prematurely?"

### Objectives

The objective of the investment policy is to achieve the highest possible growth in value on the domestic and foreign capital markets in euros. The fund's assets are only invested in convertible bonds that are selected according to the principles of sustainability. To this end, issuers are analysed and classified according to environmental, social and governance criteria. This includes, among other things, the issuers' environmental management, their social standards and corporate governance, as well as their product portfolio. The fund is actively managed within the framework of its objectives and does not follow any benchmark index.

### Intended retail investor

The fund is aimed at all types of investors pursuing the goal of asset accumulation or asset optimisation and who wish to invest on a medium-term basis. They should be in a position to bear losses up to the amount of the capital they have invested. This fund is a product for customers with a basic knowledge of, and experience with, financial products.

## What are the risks and what could I get in return?

### Risk Indicator

**The risk indicator assumes you keep the product for 3 years.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. In very adverse market conditions, it is possible that the ability to execute your redemption request may be impaired.

This product does not include any protection from future market performance so you could lose some or all of your investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period : 3 years			
Investment EUR10,000 Scenarios		If you exit after 1 year	If you exit after 3 years
<b>Minimum</b>	There is no minimum guaranteed return. You could lose some or all of your investment.		
<b>Stress</b>	What you might get back after costs	6,470 EUR	6,630 EUR
	Average return each year	-35.3%	-12.8%
<b>Unfavourable</b>	What you might get back after costs	7,630 EUR	8,040 EUR
	Average return each year	-23.7%	-7.0%
<b>Moderate</b>	What you might get back after costs	9,720 EUR	10,140 EUR
	Average return each year	-2.8%	0.5%
<b>Favourable</b>	What you might get back after costs	12,260 EUR	12,810 EUR
	Average return each year	22.6%	8.6%

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between 02/2021 and 02/2024.

The moderate scenario occurred for an investment between 08/2016 and 08/2019.

The favourable scenario occurred for an investment between 10/2018 and 10/2021.

## What happens if Lupus alpha Investment GmbH is unable to pay out?

The failure of the company will have no direct effect on your redemption, as the statutory regulation provides that in the event of the insolvency of the financial investment management company, the investment fund will not become part of the assets of the insolvency estate, but will be administered independently.

## What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 3 years
<b>Total costs EUR</b>	520 EUR	790 EUR
<b>Annual cost impact (*)</b>	5.2%	2.7% per year

(\*)This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.1% before costs and 0.5% after costs.

### Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	4.0% of the amount you pay in when entering this investment.	390 EUR
<b>Exit costs</b>	We do not charge an exit fee for this product.	0 EUR
Ongoing costs taken each year		
<b>Management fees and other administrative or operating costs</b>	0.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	81 EUR
<b>Transaction costs</b>	0.5% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	45 EUR
Incidental costs taken under specific conditions		
<b>Performance fees</b>	There is no performance fee for this product.	0 EUR

## How long should I hold it and can I take money out early?
