What is this product?

Type

The fund is a UCITS investment fund issued in Germany.

There is a ten-day deadline for selling units and swing pricing for calculating the unit price when units are redeemed or issued.

Term

The fund has an indefinite term. The company is entitled to terminate the management of the fund subject to a notice period of six months by way of an announcement in the Federal Gazette and furthermore in its annual or half-yearly report. Information on redemption options can be found in the section "How long should I hold the investment and can I withdraw money prematurely?"

Objective

The fund management's objective is to generate long-term income and steady capital growth by investing primarily in collateralized loan obligations ("CLOs"). The fund is actively managed within the framework of its objectives and does not follow any benchmark index.

Intended Retail Investor

The fund is aimed at all types of investors pursuing the goal of asset accumulation or asset optimisation and who wish to invest on a medium-term basis. They should be in a position to bear losses up to the amount of the capital they have invested. This fund is a product for customers with a basic knowledge of, and experience with, financial products.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: 3 years Investment: 10,000 EUR			
Scenarios		If you exit after 1 year	If you exit after 3 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	7,060 EUR	7,370 EUR
	Average return each year	-29.40%	-9.70%
Unfavourable	What you might get back after costs	7,540 EUR	8,110 EUR
	Average return each year	-24.60%	-6.80%
Moderate	What you might get back after costs	10,280 EUR	11,170 EUR
	Average return each year	2.80%	3.70%
Favourable	What you might get back after costs	13,630 EUR	14,440 EUR
	Average return each year	36.30%	13.00%

The stress scenario shows what you might get back in extreme market circumstances.
 Unfavourable: This type of scenario occurred for an investment between May 2017 and April 2020.
 Moderate: This type of scenario occurred for an investment between February 2016 and January 2019.
 Favourable: This type of scenario occurred for an investment between October 2022 and September 2025.

What happens if Lupus alpha Investment GmbH is unable to pay out?

The failure of the company will have no direct effect on your redemption, as the statutory regulation provides that in the event of the insolvency of the financial investment management company, the investment fund will not become part of the assets of the insolvency estate, but will be administered independently.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods. We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	510 EUR	782 EUR
Annual cost impact(*)	5.1%	2.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 3.7% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	4.0% of the amount you pay in when entering this investment. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	400 EUR
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.9% of the value of your investment per year. This is an estimate based on actual costs over the last year.	107 EUR
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 EUR
Incidental costs taken under specific conditions
